Notes

- This keyboard follows the Canadian French layout as its base.
- The superscript-u ^u is typed with the Canadian French **# key**. It is located on the Grave key on US English keyboard layouts. Please use this key instead of your word processor's superscript formatting. It is both more stable and more convenient.
- All accents are typed before the base character: è is typed **Grave** then **e**.
- All changed keys can type their original value by holding down the **Right-Alt** or **Option key**. The **Number Sign #** is typed **Right-Alt+#** (Windows) **Option+#** (Mac).
